CAREER OBJECTIVE

B.Tech CSE (Data Science) student and software engineering fresher with knowledge of Python, SQL, Data Structures, PySpark basics, Power BI, HTML and CSS. Looking for an Associate Software Engineer role to use my programming, problem-solving, application development, testing and debugging skills and gain experience in a professional environment.

TECHNICAL SUMMARY

- Good understanding of Python, SQL and Data Structures.
- Familiar with PySpark basics and data processing concepts.
- Hands-on experience with Power BI for dashboards and data visualization.
- Knowledge of HTML and CSS for web development.
- Good at problem solving, debugging and writing basic application logic.

EDUCATION

B.Tech — CSE (Data Science), Annamacharya University, Rajampeta, Kadapa | 2023–2027 | CGPA: 9.27
Class XII — Board of Intermediate Education, Vasavi Junior College, Dharmavaram | 2021–2023 | 88.3%
Class X — SSC, MPL Girls High School, Dharmavaram | 2020–2021 | 10.0 CGPA

PROJECTS

AI Job Alert Application | React, TypeScript, Node.js, Express, MongoDB, JWT
- Developed a full-stack job alert application with React frontend and Node.js/Express backend.
- Implemented user authentication and database operations for user profiles, job preferences and job alerts.
- Built application logic to match job postings with user preferences and provide relevant alerts.

Code Debugger Platform | React, Supabase, JavaScript
- Built a web-based platform for entering, running and debugging code snippets.
- Used Supabase to manage user data, saved code snippets and application state.
- Applied debugging and problem-solving techniques to improve application functionality.

Online Quiz System | Python Flask, HTML, CSS, SQLite
- Developed a web-based quiz application using Python Flask, HTML and CSS.
- Integrated SQLite to store questions, user responses and quiz results.
- Implemented answer validation, score calculation, testing and debugging.

INTERNSHIP

Data Science Intern — SkillDzire
- Used Python to clean, transform and process datasets.
- Connected Excel data with Power BI for reporting and dashboard creation.
- Worked on report-generation logic, debugging and dashboard improvements.
- Collaborated with the team and presented technical findings.

TECHNICAL SKILLS

Programming: Python, SQL
Data & Analytics: PySpark (Basic), Power BI, MS Excel
Web Technologies: HTML, CSS
Concepts: Data Structures, Problem Solving, Debugging, Testing, DBMS Basics
Databases: SQLite, MongoDB, Supabase
Tools: Git, GitHub

CERTIFICATIONS

Power BI – Microsoft | MS Excel – Microsoft | Data Science – SkillDzire | Power BI Workshop – Novitech

ACHIEVEMENTS & ACTIVITIES

- Built ALIS (Adaptive Learning Intelligence System) as part of the OSC AI Build 1.0 Hackathon.
- Participated in the Summer Internship Challenge 2026 organized by GradSkills & CodeQuesters.
- Presented technical project work, including application and Power BI-based projects, in departmental exhibitions.
